 BRAIN

 BITWIG

Quick Start

4 STEPS TO GET STARTED

1 INSTALL

Open bitwigai-1.0.0-arm64.dmg and drag Studio AI to Applications.
Launch the app — a transparent overlay window appears.

2 API KEY

Enter your API key in the app window:
Gemini (free): aistudio.google.com
Claude: console.anthropic.com
The BRAIN indicator turns green when connected.

3 CONNECT BITWIG ONE TIME ONLY

1. Open Bitwig Studio
2. Settings -> Controllers
3. Click + (Add Controller)
4. Manufacturer: Audio Forge RS
5. Product: JSON-RPC/OSC
6. Click Add

The BITWIG indicator turns green. Done.

4 CREATE

Type commands in the chat panel:
'Create a new instrument track with a warm pad sound'
'Set the tempo to 128 BPM and add a drum track'
'Load a reverb plugin on the master channel'
Keep Bitwig open while using Studio AI.
